Example cheatsheet

I. First Paragraph

<u>Définition 1</u> Un graphe is always the best set you can find in a WQO.

Propriété 2 Un graphe orienté acyclique est toujours cyclique.

Property 3 The MPRI is the best master.

Quand je fais des trucs.

Je suis en train de save.

$$a = \Delta + \mathbb{R} + \mathcal{D} + \int_0^n b \, \delta x + c$$

$$= \qquad \qquad \Gamma + c$$

$$= \qquad \qquad \sum_{i=0}^n x_i$$
